Update Training EPLAN Platform 2023 from Version 2022

One Day Full of Tips and Tricks

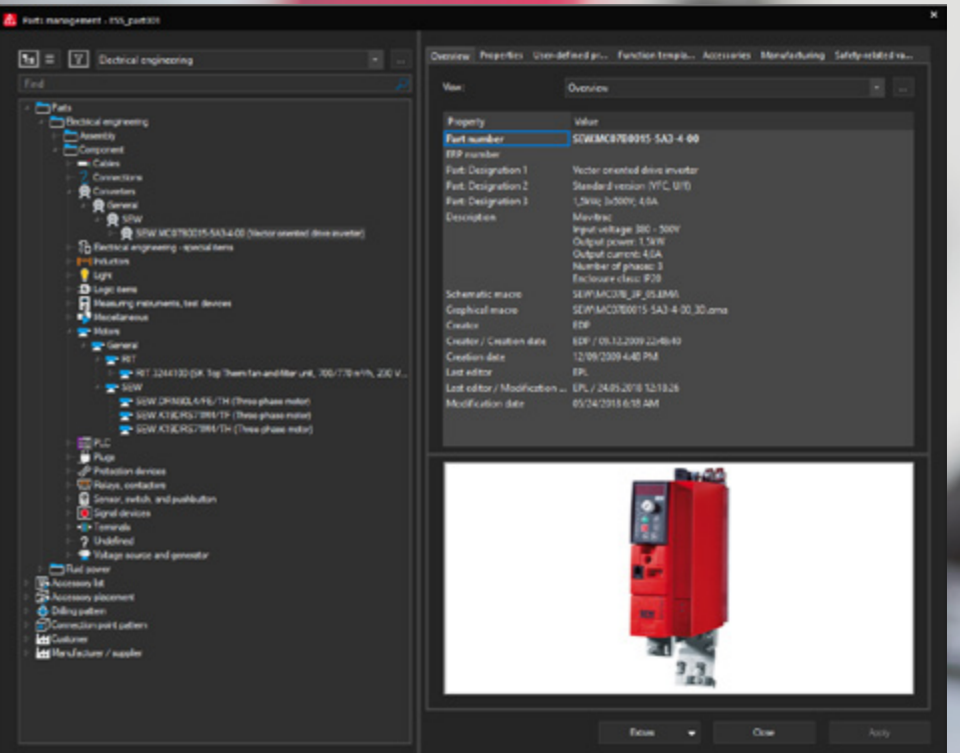

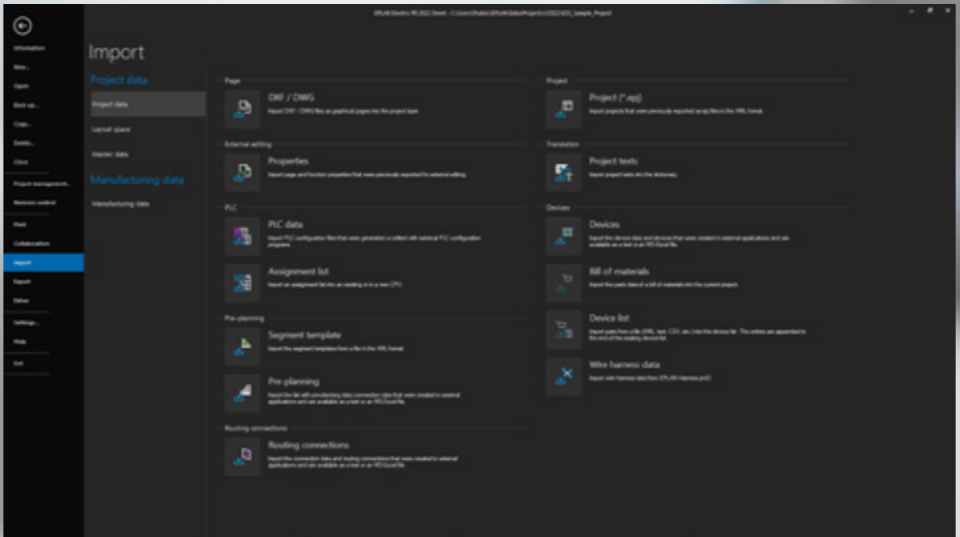

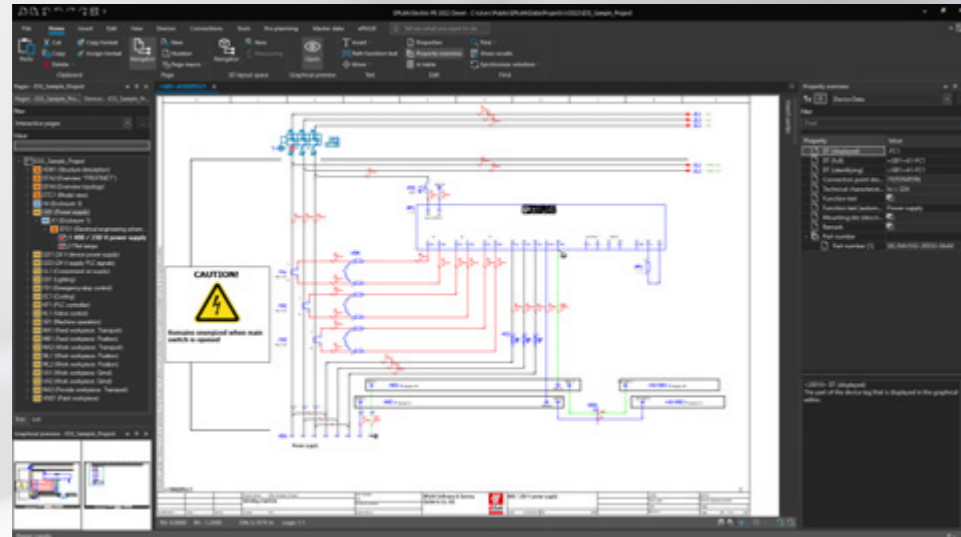

We will help you update to
the latest version of the EPLAN Platform

Update Training EPLAN Platform 2023 From Version 2022

Do you work with EPLAN Platform 2022, thus giving you prior knowledge of how to handle our current software generation? In our one-day update training course, we will get you up to speed on the most important new developments for Version 2023 and will supply you with useful tips and tricks for your daily work in engineering.

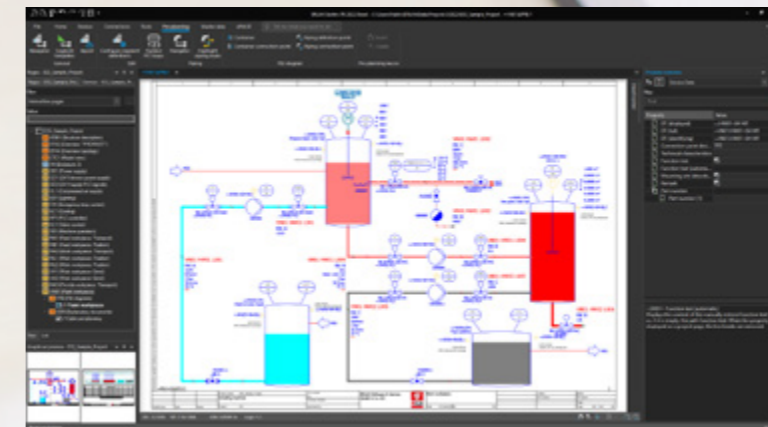

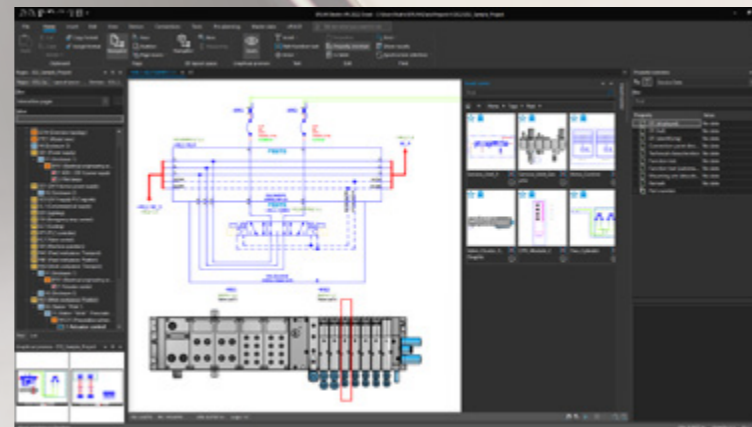

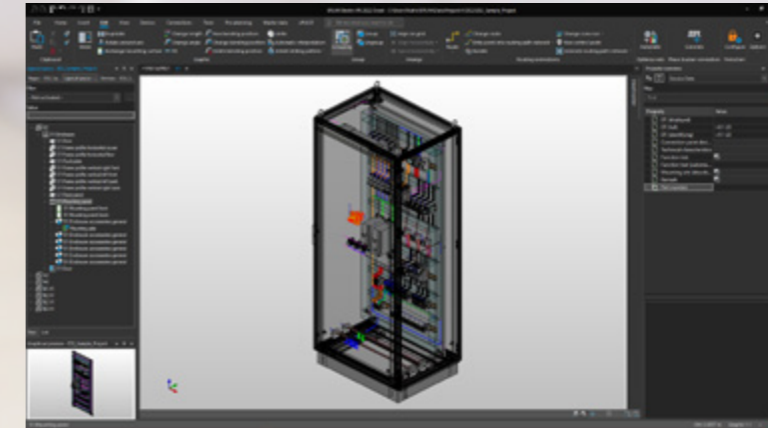

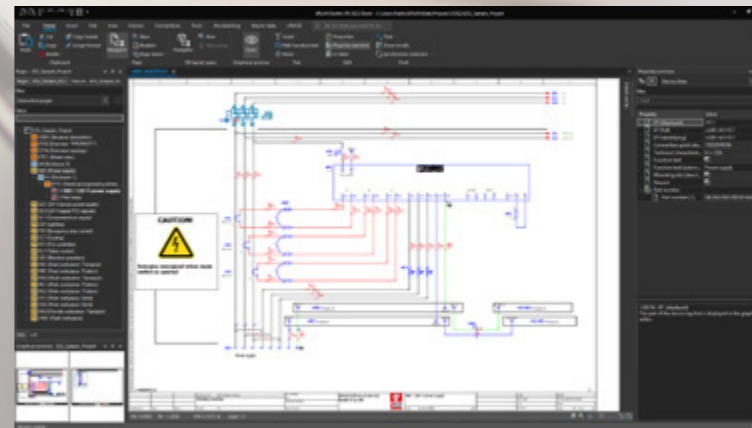

Course aims and benefits

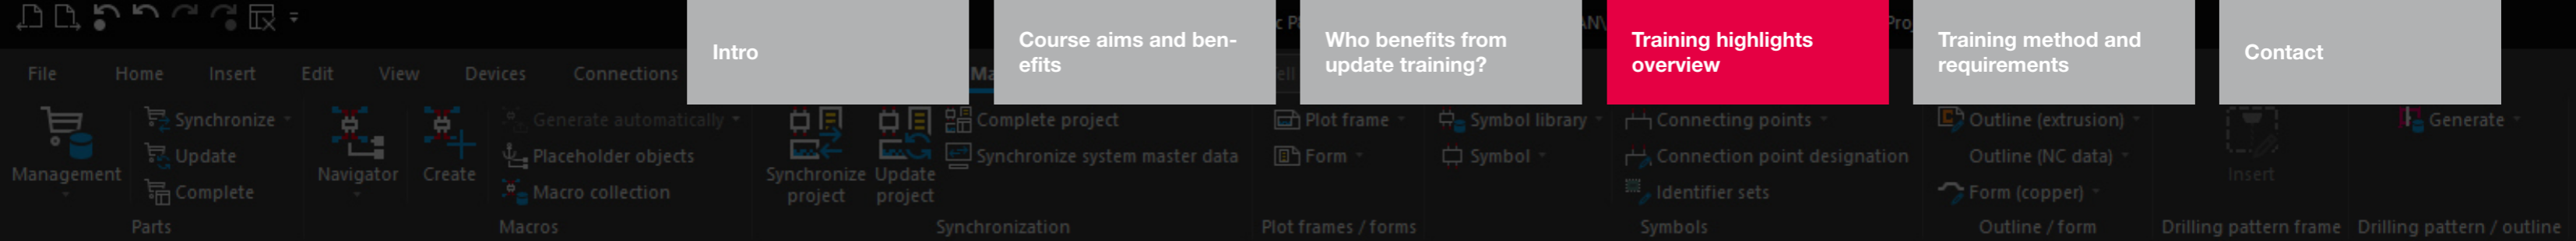

- Learn the new features of the insert center for unified selection of symbols, macros and devices.
- Create your circuit plan macros using different international standards and company standards.
- Take full advantage of the benefits of the EPLAN Cloud solutions such as eMANAGE, eSTOCK and eVIEW.
- Benefit from valuable tips and tricks for engineering with EPLAN from our experienced trainers.
- Learn the latest developments through practical examples.
- Benefit from our illustrated, digital training documentation.

Who benefits from update training?

- This one-day update training course is tailored to the needs of users who already work with EPLAN Platform 2022.

Overview of training highlights

■ Insert center

- Intuitive, unified selection of symbols, macros and devices
- Expanded information area with important features and configurable tables
- Optimised display of graphic preview for device-oriented design

■ Company standards and norms for circuit plan macros

- Establishing circuit diagram macros for different standards or company standards

■ New internal format for databases

- Migration of existing access databases to EPLAN Platform 2023

■ Cloud and platform solutions in EPLAN

- Execute, comment and version project changes with EPLAN eVIEW in your browser
- Easily release articles via eSTOCK through EPLAN for specific users and utilise as a data source

■ PLC and cable

- Allocate PLC-E-/A channel-oriented connections in tabular form, clearly and conveniently
- More efficient cable configuration using the new dialogue interface
- Place shielding from navigators

Training method

Participate in our one-day training online. We will provide a complete training environment to you free of charge.

No EPLAN installation or licence necessary!
