Welcome to the EPLAN Virtual Fair 2022!

This year the focus will be on smooth collaboration within the ecosystem of industrial automation, since full potential can only be realised via interaction. Examples of best practices will show you the benefits of optimised cooperation at all levels and in industry-specific areas. Look forward to fascinating discussion rounds, keynote presentations and helpful software demonstrations.

Added value for you:

Trends

As a **decision-maker**, use the Virtual Fair as an opportunity to network globally on C-level and participate in panel discussions. The EPLAN management will also inform you about current strategic challenges and opportunities.

Projects

As an **engineering manager**, you will benefit from our expertise in integrated process consulting. We will work together to reveal the potential for optimisation in your company – whether small or large. Get inspiration from genuine best practices and the latest project examples.

Software

Let's EPLAN! As a **user**, you can look forward to a wide range of software demos, live presentations and helpful tips and tricks for your daily tasks.

We look forward to your participation!
